## CWS CONCRETE WASHOUT SYSTEM

### Simple Solutions for washing off concrete wagon chutes and equipment

A cost effective alternative to skips & suction wagons, the CWS allows concrete equipment to be washed off onsite by separating the solids in the wash water and indefinitely recycling the remaining water. pH can be easily neutralised if required.

Closed loop cycle/wash water is recycled

No hazardous water is generated

Simple to set up, empty and operate

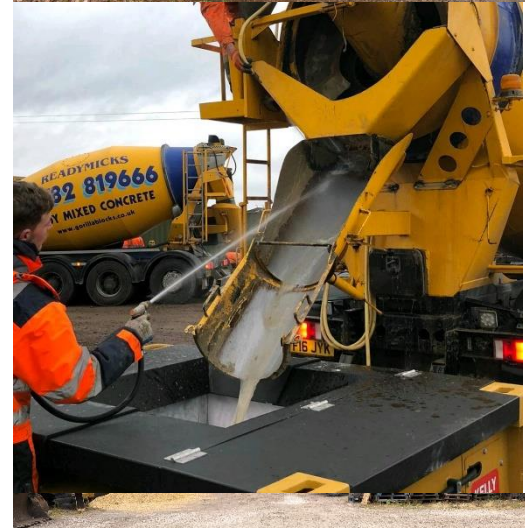

Solids are retained in sack

Dims (mm) approx.	2140 (L) 1560 (W) 1030 (H)
Weight approx.	Unladen: 980kg Laden: 1580kg
Power Required	110V
Consumables	Adsorption Sacks pH Neutraliser (optional)
Capacity approx.	600ltrs with indefinite re-use

## AVAILABLE FOR HIRE OR PURCHASE

1. Use the hose to wash off chute/equipment into Adsorption Sack
2. Water passes through Adsorption Sack, where solids are retained
3. Water is then pumped back into system, to be re-used.
