

KELLY TANKS

ADSORPTION SACK & FRAME

Sack enables retention of solids and oil residue, whilst allowing effluent to filter and drain

Heavy duty sacks, ideal for wet waste onsite. Specially designed to allow the fast flow of water whilst retaining solids and adsorbing contaminants. Ideal for washing concrete equipment off into and other onsite waste disposal. Sacks can be used in conjunction with a Frame to allow drained water to be pumped to discharge point or reintroduced back into system.

No power is required

Simple to set up, empty and operate

Solids are retained in sack

Filtered water can be easily neutralised for re-use

Dims (mm) approx.	1450 (L) 1240 (W) 1080 (H)
