

KELLY TANKS

DOUBLE ADSORPTION SACK & FRAME

Sacks enable retention of solids and oil residue, whilst allowing effluent to filter and drain

Heavy duty sacks, ideal for onsite waste. Specially designed to allow the fast flow of water whilst retaining solids and adsorbing contaminants. Ideal for washing concrete equipment off into and other onsite waste disposal.

NO DOWNTIME The beauty of a double system is that the system can continue to be used when changing one of the sacks or waiting for a sack to drain. Allowing the sacks to drain for longer increases their usage. Additionally, sump capacity is also increased.

No power is required

Simple to set up, empty and operate

Solids are retained in sack

Filtered water can easily be neutralised for re-use

Dims (mm) approx.	2220 (L) 1440 (W) 1100 (H)
Weight approx.	Unladen: 600kg (open) 720kg (enclosed) Laden: 2600kg / 2720kg
Power Required	Not Required
Consumables	Adsorption Sacks pH Reducer (optional)
Capacity approx.	500ltrs (open) 2000ltrs (enclosed)

AVAILABLE FOR HIRE OR PURCHASE

HEAVY DUTY VERSIONS ALSO AVAILABLE
